

FIG. 1

62 60

Number (e.g. DSNZ999I - all caps):

DSNZ999I 64

Origination (e.g. Wallar, 03/16/1999, DCR DG999):

Wallar, 08/30/1999 66

Message Text (Not used for Codes):

Here is some sample text. In the Messages and Codes book for DB2, this text would give a Textual Representation of what the above number indicates. ..(i.e., The system is not able to process your information) 68

Explanation:

Here is where the explanation of the Message Text would be displayed....(i.e., You did not enter the proper key word and the system halted) 70

Severity(0-8): (e.g. 4 (warning))

This is where the Severity Code would go...(i.e., 72

System Action:

This is where the action that the system completes would go...(i.e. System restarts) 74

Operator Response:

Not all the fields have to be filled in. The application can determine when to add tagging and when a field should be omitted. 76

Programmer Response:

78
